Franchise Re Selling business Partnership Program

How It Works in 3 Simple Steps:

- 1. Pay ₹5,000 Franchise Fee
  - Anyone can become business partner by paying this one-time franchise setup fee.
  - You earn ₹2,500 profit per franchise sold. Under you

### 2. Partners Earn Too!

- Partners can recruit new franchisees (like Martin/Kevin in your example). And re sell unlimited franchise and make business partners from all around the world
- You get override profits from their networks (just like your existing scenario 1).

### 3. Scalable Passive Income

o More franchisees = More ₹2,500 profits

You build a network of digital entrepreneurs under you. Each partner pays

□₹5,000 → 

You get ₹2,500 instantly. (UNLIMITED FRECHIES RE SELLING PROFITS)

Scale = Explosion

100	Business Frenchie's sell	<b>●</b> ₹ 2,50,000
1,000	Business Frenchie's sell	<b>●</b> ₹ 25,00,000
5,000	Business Frenchie's sell	<b>●</b> ₹1.25 Crore
20,000	Business Frenchie's sell	<b>●</b> ₹5 Crore
50,000	Business Frenchie's sell	<b>●</b> ₹12.5 Crore
1,00,000	Business Frenchie's sell	<b>●</b> ₹25 Crore

You build an empire by adding more business partners.

They earn. You earn again and again.

Now you might be thinking - "Why should I pay ₹5,000?" Let me clear this first:

- 1. First of all, I'm not asking for your life's savings amount. This is just ₹5,000 to set up your franchise business.
- 2. With this payment, you'll enter a business with ZERO LOSS potential. Out of your ₹5,000, 50% goes to your seniors to grow this business because when seniors grow, YOU grow too! Soon you'll become a senior and earn money in the same way.
- 3. If you're hesitating over ₹5,000 while becoming a business partner, then no one can change your mentality if you think 5000 you save will become 100cr then its ok but if you get even 1% chance to grow your 5000 to even 1cr then this 5000 should use for life changing. Many people lose ₹50k-₹100k daily in stocks, trading, and other ventures.
- 4. This ₹5,000 isn't money you're going to lose it's money that gives you DAILY GROWTH OPPORTUNITIES and high-level confidence whenever you go people ask what you do and very confidently you introduce you

- run a business you run a gaming business franchise. Buying into growth is a skill and personal development.
- 5. After joining, even if you don't make much money initially, you'll gain confidence and a business to make profits anytime anywhere jobs stay or not this business always works for you.
- 6. The day you start earning, you'll thank yourself for choosing this business instead of wasting ₹5,000 elsewhere because that same ₹5,000 could grow into a ₹10-100 crore empire!

You're planting a ₹5,000 seed today to grow your 100-crore empire tree tomorrow!

Even when you play games — win or lose — you get paid.

### Example:

You play □₹1,000 worth of games →win or lose Platform profit □₹800 → You get □₹320 cashback every time

Fun has never been so profitable. You're a player-owner, not just a user.

# P And yes, just wanted you to ask yourself right now:

You have struggled your whole life... but what do you truly have today? Do you have a real plan in your hand that can completely change your life? Or are you just living day to day, wishing for something better that never comes?

Al has started doing many jobs and in the coming time this will be more powerful. Many people are losing their jobs, but this will help you in the coming time—when there will be no jobs in many sectors. This platform is worldwide. You can run this and make your business partners from any part of the world, from any country, and you can earn in USD, EURO, or in other currencies.

Still, if your answer is "No," then read this carefully—because this is your moment.

You were not born rich, but you can let your kids be born rich.

This is about building an empire.

Just believe in yourself and make yourself believe: "I can do it. I will change my life."

Make your kids feel they are rich—from that day only, you start thinking differently. You think like a businessman.

Rest, you are also not a kid. You know very well what you need now.

Life is short and your dreams are big.

Ask yourself honestly:

Do you want to live the same life you are living right now? If "yes," then this is not for you. You can continue with your day-to-day struggle and keep dreaming.

Keep watching others drive Defender, Ferrari, or Rolls Royce.

You might always have the question: What do rich people do, and how do they have luxury cars and things?

So here is the answer: They do what you don't do.

They have a plan. They have a business. They have success.

And you have dreams, responsibilities, and adjustments.

They did what you're still avoiding.

The answer is clear—you have to start working on big plans,

Because small work can only help you survive—not build your own empire.

### The mindset that creates success:

The difference between an average-income person and a billionaire is simple:

A billionaire has a plan that works for them to make them richer every single day,

And they take quick action with strong belief.

That is why there are only 1% billionaires in the world.

An average-income person keeps doubting and waiting,

Rides an old bike or car, struggles to pay bills,

And wonders when life will change—never realizing it won't change without action.

# Don't think twice. Tomorrow never comes back. So just tell yourself—let's do it.

Let me make it clear: I am not asking something big from you. I just want you to give a chance to this business proposal.

And yes—there is no pressure for this.

Join this with confidence, with a big smile, and with belief.

Just tell yourself: Let's give it a try.

Maybe this is what nature planned for you.

This could be the chance that people get once in a lifetime.

# We invite you to join The World Play "Business" now and start building the life you've always dreamed of.

"You choose what you want to be. In these picks, your coming life and your future can be defined. A rich and successful life is different: you choose your way very clearly in the picture."

"You live life on your own terms—either do a 9-to-5 job, make your boss richer, and keep doing it , or travel whenever and wherever you want. Very simple—be your own boss with a big smile."

"And when you are the boss, you give your family the best lifestyle, education, and comfort."

"You're not just earning—you're growing, investing, and living a fully luxury life. And yes, the day you wish to buy a 500Cr house, nature also starts working for you. Your

mind works differently from others. Always plan big. It will not be done in 1 day or 1 month, but once you have started, then one day—and every day—will be your day."

Plans can work for you in a very easy way. Everyone wants good for themselves, so just tell them what you are doing in this plan and help them to have the same plan for themselves—and your job is done.

Good Luck and God Bless You... Let's do it together, build your empire, and win a better future.

Always remember one thing, my friends:

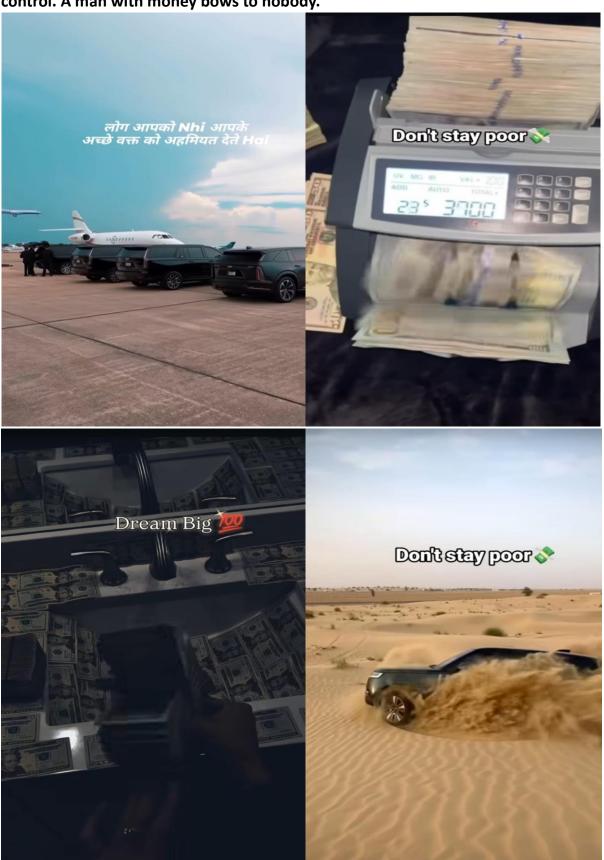

No matter what you do in life, never choose to live in adjustments.

Poverty is one of the biggest curses—it silently destroys dreams, dignity, and opportunities.

The truth is harsh: no one wants poor people around.

Even a rich man's dog is treated with more love and respect than a poor person. **So, rise above. Take control. Change your story.** 

This will be your story your life now because money is not for luxury only but for control. A man with money bows to nobody.
